

NORDIC3DEXPO

19-20 May 2017, Vantaa, FINLAND

What is NORDIC3DEXPO?

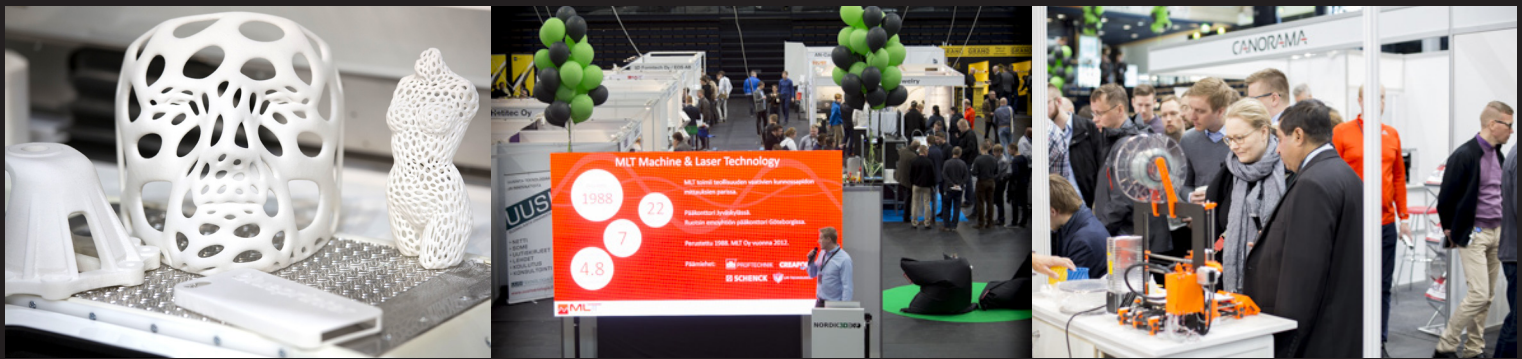

#N3DE

The NORDIC3DEXPO exhibition, the Original Exhibition of 3D printing and 3D technologies, is the first exhibition of its kind in Scandinavia and Northern Europe to focus on 3D printing and 3D technologies. The exhibition began in spring 2016, when it took place for the first time at Energia Arena in Vantaa, Finland. It immediately gained a lot of attention around the globe and gathered together over 40 exhibitors and a few thousand 3D-printing enthusiasts worldwide from Finland, Sweden, Denmark, Germany and the Czech Republic. Make sure you'll be a part of the future growth of 3D printing in Scandinavia, the Baltics and Russia!

Book your stand for the 2017 event now!

3D PRINTING **ADDITIVE MANUFACTURING**
3D GRAPHICS **3D VIRTUAL REALITY** **3D SERVICES**
